

Engineering, Product Liability, Fire/Explosion Investigations, Motor Vehicle Crash Reconstruction

**GARY A. BARNETT BS CFEI CFII CVFI DABFET DABLEE
CRASH RECONSTRUCTIONIST**

Gary A. Barnett is a twenty-year veteran of the Indianapolis Police Department, retiring in 1990. During his twenty years of service, his career path has covered the following areas:

1970-75 Road Patrol Officer; 1975-81 Office of the Chief, Planning & Research Branch; 1981-87 Traffic Accident Investigator; 1987-90 Office of the Chief, Arson/Fire Investigation Unit.

During this period, Gary received his Bachelor of Science Degree from Indiana University in 1981. He was also responsible for the development of new programs for the police department and was certified as an instructor by the State of Indiana to teach various subjects in law enforcement schools within the state. Gary is still a guest lecturer at the Indianapolis Police Department Training Academy and Vincennes University.

In the last nine years of his career, Gary was responsible for investigating thousands of on-scene motor vehicle accidents. After transferring to the Arson/Fire Unit, he was responsible for the investigation of/participation in excess of 750 fire investigations. Since starting his own company, this figure has grown to over 2,000 fire investigations. Also during the above period, Gary has testified and qualified as an expert in numerous criminal and civil cases in the areas of fire origin & cause and motor vehicle crash reconstruction.

Gary received his certification in Fire Cause and Origin (CFEI) and as Fire Investigation Instructor (CFII) from the National Association of Fire Investigators (NAFI) after attending courses at Eastern Kentucky University in 1990. In 1991, he completed Motor Vehicle Accident Reconstruction courses and received his certificate from the Institute of Police Technology & Management (IPTM) at the University of North Florida.

At IPTM in 1993, he followed this certificate with an Advanced Traffic Accident Reconstruction course using microcomputers. Up-to-date computer engineering programs are currently used when applicable.

Gary is also a Diplomate of the American Board of Forensic Engineering and Technology, DABFET, a Diplomate of the American Board of Law Enforcement Experts, DABLEE, of the American College of Forensic Examiners. In 2007 Gary achieved the status of Fellow in the American College of Forensic Examiners Institute.

For several years Gary was a board member for the annual Indiana Fire Investigation Conference sponsored by the Indiana Chapter of the International Association of Arson Investigators (IAAI).
